Live Webinar Program

The Use of Technology in Children's Palliative Care

Friday, 22nd October 2021
16.00 - 18.30 (CEST = UTC +1)

Access to the webinar is free.
Registration is required.

Hosted by: Fondazione Maruzza
In cooperation with: Pontificia Pro Universitaria
ABOUT THE WEBINAR

The COVID-19 pandemic has highlighted how, particularly in challenging and crisis situations, the use of technology and digital tools can be valuable allies in the delivery of patient care, in the rationalization of human and physical resources and in sustaining communication between medical staff, patients and their families.

This online event aims to examine the relationship between technological innovation and pediatric palliative care. In clinical practice, what are the experiences of those using these tools in pediatric palliative care? In which contexts can these technologies be beneficial? What is the impact at an anthropological and ethical level? We will attempt to answer these and other questions thanks to the contribution of a panel of international experts.

PROGRAM

16:00  Welcome
       Silvia Lefebvre D’Ovidio, Franca Benini, Don Renzo Pegoraro

16:05  "Dare"
       Matteo Asti

Telemedicine in Pediatric Palliative Care
       Moderators: Ann Goldman, Ulrika Kreicbergs

16:15  Humanitarian Crises: criticalities and solutions
       Joan Marston

16:25  Telemedicine and Covid19
       Francesco Gabbrielli

16:35  The link between telemedicine, A.I. and robotics
       Sara Marceglia

16:45  The scope of telemedicine in PPC
       Ross Drake

16:55  Questions and answers
       Ann Goldman, Ulrika Kreicbergs
**Clinical Experiences**
Moderators: Stefan Friedrichsdorf, Julie Hauer
